STAT

[redacted]
I enjoyed meeting and talking with you just about one month ago about a position in your organization. You were most helpful with your explanations.

I assume you have recently looked through the pile of application forms. Therefore you can realize I have been researching my life - I'm glad I'm not 4000 years old.

Hopefully I'll have everything totally completed and mailed to you in about a week.

And also I hope you have not totally forgotten about this applicant.

Sincerely,

STAT

P.S. over please...

After some serious thought and talking with my husband I am interested in a career with your Agency but not in overseas activities or traveling in the U.S.

Involvement in the kind of work in Washington we discussed continues to interest me very much.
